

Instruction V16

FOR VOLVO CARS MANUFACTURING – INSTRUCTION FOR USING V16

October 2023

The following instructions are valid for the V16 Quickbox used for overseas shipping where it is mandatory to use according to the VOLVO CARS PACKAGING REQUIREMENT.

Maximum unit load per Quickbox is 8 kg.

Mandatory:

- To use EMB153 for pallet label.
- The correct pallet, Half pallet for Quick box, art.No 2073404
(No other pallet is allowed to use!)
- Always fill up with a full layer of boxes to make a complete layer.
If necessary fill up with empty boxes.
- Maximum layers of boxes are 4 on each pallet.
- Use top lid and two straps as shown in the instruction.
- Do not use stretch film, use 2 straps on the longside only.
